Notes to Condensed Consolidated Interim Financial Statements

Unaudited - (Expressed in Canadian Dollars, unless otherwise stated)

Three and nine months ended September 30, 2020 and 2019

1. Corporate information

Torq Resources Inc. (the “Company” or “Torq”) is incorporated under the Business Corporations Act (British Columbia) and is listed on the TSX Venture Exchange (the “Exchange”) as a Tier 2 mining issuer. The Company’s shares trade under the symbol TORQ.V in Canada and on the OTCQX under the US symbol TRBMF. The head office and principal address of Torq is located at 1199 West Hastings Street, Suite 600, Vancouver, British Columbia, Canada, V6E 3T5.

The Company is principally engaged in the acquisition, exploration, and development of mineral property interests with focus in the Americas.

2. Basis of presentation

(a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34, “Interim Financial Reporting” using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the IFRS Interpretations Committee (“IFRIC”). The accounting policies followed in these condensed consolidated interim financial statements are the same as those applied in the Company’s most recent audited consolidated financial statements for the years ended December 31, 2019 and 2018, except as follows:

- Amendments to IAS 1 – Presentation of Financial Statements and IAS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments are intended to clarify the definition of material in IAS 1 and not intended to alter the underlying concept of materiality in IFRS standards. The concept of ‘obscuring’ material information with immaterial information has been included as part of the new definition. The threshold for materiality influencing users has been changed from “could influence” to “could reasonably be expected to influence”.

The definition of material in IAS 8 has been replaced by a reference to the definition of material in IAS 1. In addition, the IASB amended other Standards and the Conceptual Framework that contain a definition of material or refer to the term “material” to ensure consistency.

The Company adopted the amendments to IAS 1 and IAS 8 effective January 1, 2020, which did not have a material impact on the Company’s interim financial statements.

- Amendments to IFRS 3 - Business Combinations

In October 2018 the IASB issued narrow-scope amendments to IFRS 3 to help entities determine whether an acquired set of activities and assets is a business or not. The amendments, which are effective for annual reporting periods beginning on or after January 1, 2020, clarify the minimum requirements to be a business, remove the assessment of a market participant’s ability to replace missing elements, narrow the definition of outputs, add guidance to assess whether an acquired process is substantive and introduce an optional concentration test to permit a simplified assessment.

The adoption of the amended standard did not have an immediate impact on the Company’s interim financial statements but will be applied in assessing any future business combination and asset acquisition scenarios.

These condensed consolidated interim financial statements should be read in conjunction with the Company’s audited consolidated financial statements for the year ended December 31, 2019.

These condensed consolidated interim financial statements were approved and authorized for issue by the Board of Directors of the Company on November 24, 2020.

2. Basis of presentation (continued)

(b) Basis of preparation and consolidation

These condensed consolidated interim financial statements have been prepared on a historical cost basis.

The Company's functional currency is the Canadian dollar, which is also the Company's presentation currency. These condensed consolidated interim financial statements are presented in Canadian dollars, unless otherwise noted. Amounts denominated in United States dollars ("USD") are denoted as US\$.

The condensed consolidated interim financial statements include the financial statements of the Company and its subsidiaries as follows:

Subsidiary	Place of incorporation	Functional Currency	Beneficial Interest
Stratton Resources (Canada) Inc.	BC, Canada	CAD	100%
Torq Resources Holdings Inc.	BC, Canada	CAD	100%
Torq USA Inc.	Nevada, USA	USD	100%
Candelaria Minerals S.A.C ("Candelaria")	Peru	USD	100%
Torq Resources Chile SpA	Chile	USD	100%

Subsidiaries are fully consolidated from the date on which control is transferred to the Company. They are deconsolidated from the date that control ceases. Control exists when the Company has power over an investee, exposure or rights, to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the Company's returns.

Intercompany balances and transactions have been eliminated on consolidation.

(c) Critical accounting judgments and estimates

The preparation of the financial statements in conformity with IFRS requires management to select accounting policies and make estimates and judgments that may have a significant impact on the consolidated financial statements. Estimates are continuously evaluated and are based on management's experience and expectations of future events that are believed to be reasonable under the circumstances. Actual outcomes may differ from these estimates. The Company's critical accounting judgements and estimates were presented in note 2 of the audited annual consolidated financial statements for the year ended December 31, 2019 and have been consistently applied in the preparation of these condensed consolidated interim financial statements. No new estimates and judgements were applied for the periods ended September 30, 2020 and 2019.

3. Gecon

In November 16, 2016, the Company had acquired a beneficial interest in 100% of the capital of a Bulgarian shell company, Gecon, for the purposes of establishing mineral exploration operations in the country. In 2019, the Company made the decision not to further pursue its operations in Bulgaria and on June 5, 2019, the Company entered a framework agreement with the former shareholder to return Gecon and terminate its underlying financial liability. As a result, the Company recorded a gain on settlement of \$67,005 in the consolidated statement of loss and comprehensive loss for the year ended December 31, 2019. On July 30, 2019, the Company completed the sale of its shares in Gecon to the former shareholder, and deconsolidated Gecon, recording a gain of \$2,087 through the consolidated statement of loss and comprehensive loss for the year ended December 31, 2019.

8. Financial instruments

Financial instruments are evaluated under a fair value hierarchy that reflects the significance of inputs used in making fair value measurements as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (market prices) or indirectly (derived from market prices);

Level 3 – Inputs for the asset or liability that are not based upon observable market data.

As at September 30, 2020 the Company's financial instruments consist of cash, amounts receivable, and accounts payable and accrued liabilities. The fair values of these financial assets and liabilities approximate their carrying values due to their short-term maturity.

The Company's financial instruments are exposed to credit risk, liquidity risk and market risks, which include foreign currency risk and interest rate risk. As at September 30, 2020 the primary risks were as follows:

(a) Market risk

This is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The significant market risk to which the Company is exposed is:

Foreign currency risk

The Company is exposed to currency risk by having balances and transactions in currencies that are different from its functional currency. As at September 30, 2020 and December 31, 2019, the Company's foreign currency exposure related to its financial assets and liabilities held in US dollars is as follows:

	September 30, 2020	December 31, 2019
Period end exchange rate CAD per USD	1.3339	1.2988
Cash	\$ 1,829,871	\$ 1,972,696

	\$ 1,829,943	\$ 1,966,728

A 10% increase or decrease in the US dollar exchange rates would result in an increase/decrease of approximately \$190,260 in the Company's net loss for the nine months ended September 30, 2020.

9. Supplemental cash flow information

Cash and cash equivalents at September 30, 2020 included \$28,750 (December 31, 2019 - \$28,750) held in a guaranteed investment certificate as security against corporate credit cards.
